ROOTED

in Christ

WEEK 4

Complete the devo and return it to
JW Kids to receive some JW KidsCash!

ROOTED

in Christ

DID YOU KNOW?

Roots usually grow in the ground right? True, but there are plants whose roots are NOT in the ground. Ivy plants use their roots to cling to the side of buildings. Other plants like the Banyan Tree (also called the Strangler Fig) grows off of other trees. Its roots hang in the air from the host tree's branches. Eventually the host tree dies. Cheerful information!

This week...

...we are finishing our series called **ROOTED IN CHRIST**. It is all about a book of the Bible in the New Testament called Colossians.

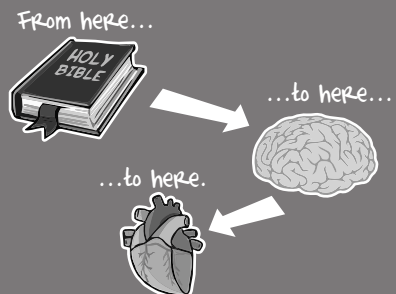

Colossians is all about who Jesus Christ really was, is and will always be!

This book is written by a guy named Paul. Paul wrote this letter to explain the gospel of Jesus and how it should shape the way that believers should live. How WE should be **ROOTED IN CHRIST**.

MEMORY VERSE

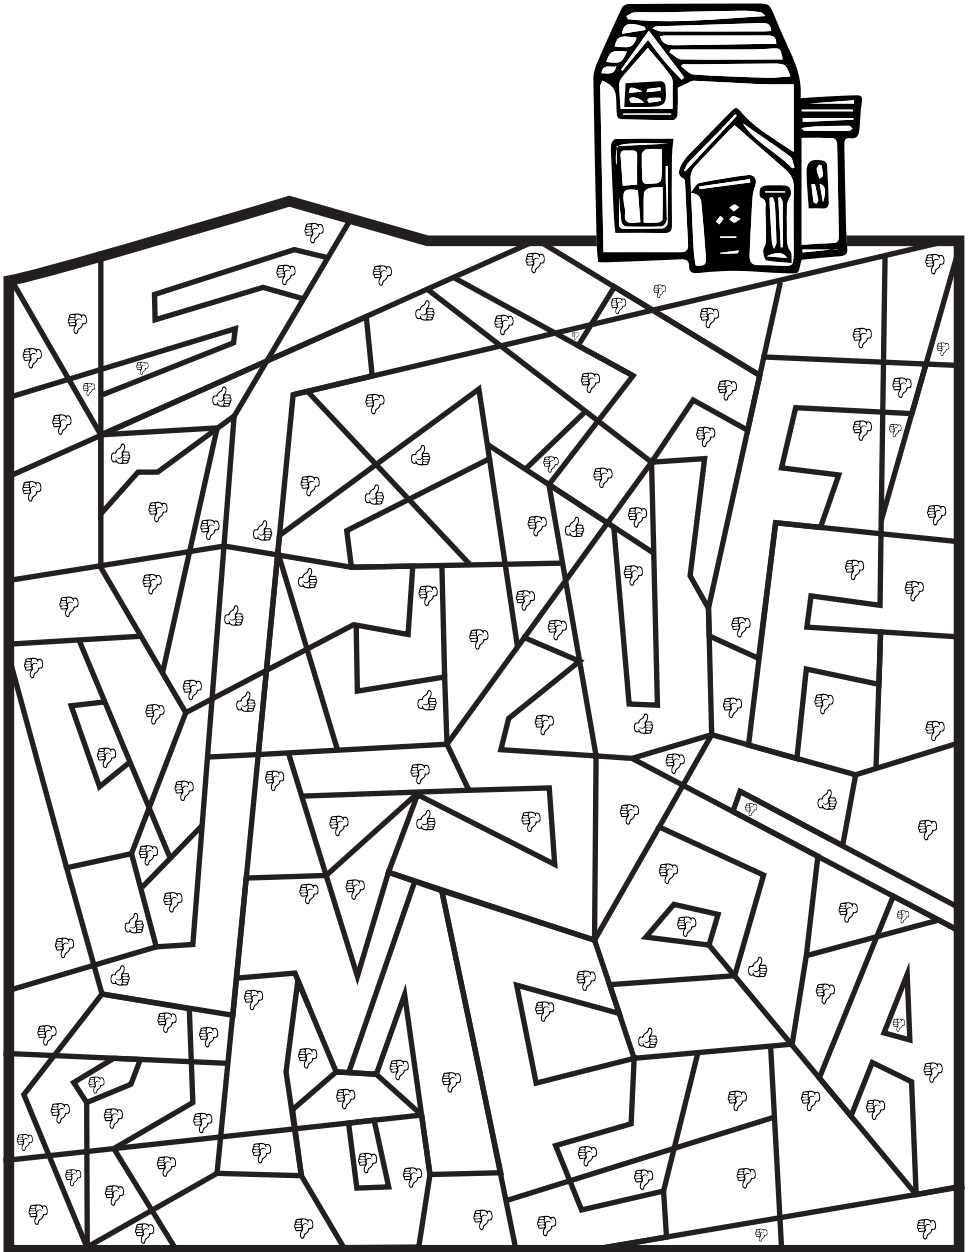

Now that you have accepted Christ Jesus as Lord, walk in Him, be rooted, and built up in Him.

Colossians 2:6

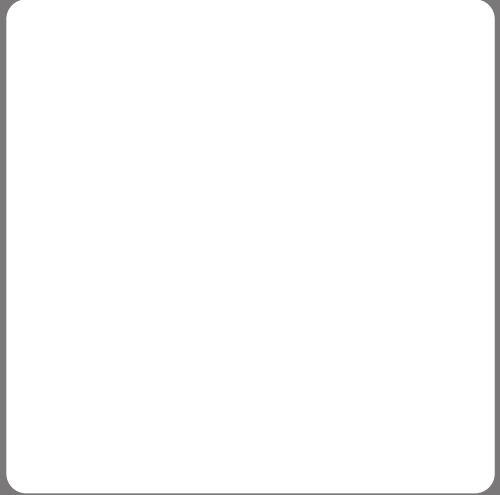

What is YOUR House Built Upon?

We try to build our lives on so many different things. The problem is it all turns out to be like building our houses on loose sand. As soon as any sort of problems happen ***CRASH!*** That's why we need to build our lives on something solid. Color in the sections that have a 🍷 in it. Ignore the sections with 🍷.

The Parable of the Two Builders

Our lives face storms all the time. Think about it. What kinds of storms do you have to face? How can building your life on the solid rock of Jesus help you through those times?

**HOW CAN
BUILDING
YOUR LIFE
ON JESUS
HELP?**
